HOW A CROSS-BORDER ORDER WORKS

One request, end to end.

Every wholesale & industrial order runs the same protected path — a small dossier fee filters out fake orders before anyone ships.

01
Request & dossier fee
The buyer opens a request and pays a small dossier fee — the anti-fake-order gate.

02
Seller confirms
You confirm the goods are available for that order.

03
Amount frozen
The platform freezes the exact total: goods + freight + customs. Never recalculated.

04
Balance paid
Buyer pays the balance — wallet below the threshold, bank transfer above it.

05
Ship & clear
Goods move by air cargo or sea container and clear customs.

06
Local hand-off
A courier in the buyer's own country completes the last mile.

Full transparency: buyers see the days-before-loading and the delivery ETA before they confirm — the shipping clock starts at loading, not at checkout. Fewer disputes, by design.

FOR INTERNATIONAL SELLERS

Three trade tiers, cleanly separated.

Retail, wholesale, and industrial are distinct products — different order sizes, different payment models. You choose per product.

Retail
`30% advance / 70% on delivery`

Single-unit orders for individual buyers. The established international flow.

Wholesale
`Dossier 2% + single balance`

Bulk orders with a minimum quantity you set per product. No advance split — one balance payment.

Industrial
`Dossier 1.5% + single balance`

Large-volume, container-scale orders. Lower dossier rate, same protected flow.

Buyers are billed automatically in **their own local currency** — you price once, everyone sees it in theirs.

FOR INTERNATIONAL DELIVERY COMPANIES

Two modes. Never mixed.

Join as an air-cargo forwarder or a sea-container line. You set your own corridor rates, customs, and loading wait-times — the platform handles quoting and settlement.

Cargo · Air

PRICED PER KG

Lighter, faster shipments. Eligible when unit weight < 50 kg and order total < 250 kg. Typical ETA 25 days.

EXAMPLE · DUBAI → ABIDJAN	
Per kilogram	**≈ 25 AED**
Minimum charge	**≈ 147 AED**
Customs	**≈ 88 AED + 15%**
Days before loading	**~3 days**
Tier discount	**−5% / −10%**

Live carrier · **Gulf Air Cargo** — Dubai

Container · Sea

PRICED PER CBM

Heavy & bulk orders, priced by cubic metre of volume. Typical ETA 50–65 days.

EXAMPLE · DUBAI → ABIDJAN	
Per cubic metre	**≈ 560 AED**
Minimum charge	**≈ 2,060 AED**
Customs	**≈ 235 AED + 15%**
Days before loading	**~7 days**
Tier discount	**−7% / −12%**

Live carrier · **Emirates Sea Line** — Jebel Ali

Indicative AED, converted from platform base (≈ 1 AED = 170 XOF). Buyers are billed in their own local currency. · 10 corridors live today, expanding across all 54 African markets.

WHY PARTNER WITH ALKEBULAN

Real orders only
The dossier fee filters fake orders before anyone commits capital or freight.

Secured payments
Escrow-style wallet below the threshold, verified bank transfers above it.

Multi-currency
Freight and prices are anchored once and shown to every buyer in their own currency.

Live container tracking
Carriers add the container number and shipping line — buyers follow the vessel to port.
